

CASH TESTER

CT 213

Compact, quick and reliable !

The CT 213 is the smallest detector in our product range. Thanks to its size and intelligent mounting holes, this detector can be placed/mounted in every position. The bright LED display indicates genuine or false via green and red LED's: that's all!

Updating the detector is easy and can be done via USB. Optionally the CT 213 can be equipped with a rechargeable battery. And, of course, successfully tested!

KEY FEATURES
